

NIHESH RACHAKONDA

Software Engineer

niheshrachakonda@gmail.com | +91 8328094810

Portfolio | GitHub | LinkedIn | LeetCode

Software engineer with production experience building scalable backend systems, cloud-deployed applications, and Big Data pipelines. Proficient in Python, Java, Go, and C++ with strong problem-solving ability (LeetCode 1824, Codeforces 1208). National-level hackathon winner experienced in writing secure, high-quality code across the SDLC, with hands-on exposure to CI/CD, agile methodologies, and collaborative team environments.

EDUCATION

VNR Vignana Jyothi Institute of Technology B.Tech in Information Technology CGPA: 9.16 / 10	Hyderabad, Telangana 2023 – 2027
Sri Chaitanya Junior College Intermediate (MPC) Percentage: 96.7%	Hyderabad, Telangana 2021 – 2023

EXPERIENCE

Dattam Labs Software Engineer Intern • Engineered high-throughput Big Data pipelines for AeroLeads using AWS Lambda (1000+ concurrent executions), SQS , and Elasticsearch ; built AccessLife , a cross-platform mobile app (Expo) with a FastAPI backend on Azure VMs serving 8–9 US school districts; owned CI/CD pipelines automating deployments across Azure and AWS, reducing manual toil in the SDLC within a collaborative, agile team.	Hyderabad Jan 2025 – Present
--	--------------------------------

SKILLS

Languages:	Java, Python, C++, Go , JavaScript, TypeScript, C, SQL
Frameworks:	React, Next.js, Node.js, Express, NestJS, FastAPI, Expo (React Native)
Cloud & DevOps:	AWS (Lambda, SQS, S3, EC2), Azure (VMs), Docker, CI/CD, Linux
Databases:	PostgreSQL , MySQL, MongoDB, SQLite, Elasticsearch , Neo4j
Data & AI:	RAG pipelines, Vector search, Knowledge Graphs, OpenAI APIs
Tools & Methods:	Git, Agile/Scrum, VS Code, GitHub Actions

PROJECTS

GST Reconciliation Platform • Built an intelligent GST reconciliation system using knowledge graphs (Neo4j) to detect circular trading patterns and assess vendor risk scores , with an AI chatbot for natural-language financial queries.	TypeScript, Neo4j, Python
NowBind nowbind.com Open source • Developing an open-source publishing platform with a Go backend and MCP/agent routes for AI agents to programmatically consume and publish content, designed for the agentic web.	Next.js, Go
Indian Court Judgements GitHub • Open-source contributor to Vanga’s project scraping and archiving Supreme Court, High Court, and District Court eCourts data into AWS S3 for public access; operates under the AWS Open Data Program , making judicial records freely available at scale.	Python, AWS S3, EC2

CERTIFICATIONS & ACHIEVEMENTS

- **ACM-KLH HackWithAI 2026** (National) – GST Reconciliation Platform – Won **INR 50,000**
- **AI Week Vibe Coding Hackathon 2026** (Winner) – SEFS: Smart file organizer with RAG chatbot
- **GDG TechSprint 2026** (Winner) – Civic Lemma: AI-powered civic grievance platform
- **Research Paper:** Testing of Hypothesis for Model Selection – **IJFMR**
- Database Structures and Management with MySQL – **Meta (Coursera)**
- Hacktoberfest Level-4 Contributor – **Hacktoberfest 2024**
